Availability: Currently on an academic exchange in Germany. Scheduled to return permanently to Curitiba in the second half of August 2026. Available for online interviews and group exercises.

GOAL

Seeking an internship opportunity in Electronic Engineering, Electric, Automation, Embedded Systems or Industrial Software Development.

PROFESSIONAL SUMMARY

Electrical Engineering student (UTFPR) currently undertaking an academic exchange programme in Germany (THI) with a focus on Computer Science and Artificial Intelligence. Solid practical experience in industrial automation (PLCs, TIA Portal, Codesys), electrical design (EPLAN/AutoCAD) and product validation in the automotive sector. Distinctive international experience, including active participation in a Formula Student team and cultural adaptability.

WORK EXPERIENCE

Party People Hospitality Services - Munich/GER

Events Waiter

Oct 2025 - Jun 2026

- Experience working at large-scale events, hotels and stadiums in Munich, developing strong cross-cultural communication skills, the ability to work under pressure, and practical fluency in an European environment.

Lightera Latam S. A. - Curitiba/PR

Project engineering working student

Apr 2024 - Sep 2025

- Support for industrial machinery installation and retrofit projects.
- Development and implementation of PLC programmes for machinery control using TIA Portal.
- Preparation of electrical schematics for new equipment using AutoCAD and EPLAN.
- Development of Python-based automation and Power Platform workflows to improve internal processes.

Forvia Faurecia Automotive - Quatro Barras/PR

Product validation laboratory working student

Mar 2023 - Apr 2024

- Conducting functional validation tests for interior components and automotive seats.
- Programming FESTO PLCs using Codesys software.
- Operating HBM-Catman Easy software for test data acquisition and analysis.
- Creating applications and automated workflows (PowerApps and Power Automate) to optimise technical reports and laboratory documentation.

EDUCATION

Bachelor of Computer Science and Artificial Intelligence

Technische Hochschule Ingolstadt (THI) - Ingolstadt

Sep 2025 - Sep 2026

- **Main subjects:** Neural Networks, PyTorch, Optimisation Algorithms, CPLEX, Data Analysis (Pandas), Object-Oriented Programming (OOP), TypeScript/JavaScript, Docker, SQL and an introduction to Corporate Finance.

Bachelor of Electronic Engineering

Universidade Tecnológica Federal do Paraná (UTFPR) - Curitiba

Feb 2021 - Dec 2027 (expected)

- **Main subjects:** Circuit Analysis, Transistors, Analogue Filters, Digital Signal Processing (DSP), RF, PCB Design, Microcontrollers (ESP32/Arduino), VHDL, C and Python.

American High School

Texas Tech University - Curitiba

Feb 2017 - Nov 2019

- American and Brazilian secondary education taught side by side at Bom Jesus Centro School.

PROJECTS AND EXTRACURRICULAR EXPERIENCE

Schanzer Racing Formula Student (THI – Germany)

Member of the Electrical and Electronics team

- Involvement in the development and assembly of wiring harnesses and the design of printed circuit boards for the university's electric racing prototype.

Relevant Academic Projects (UTFPR)

- Development of a small-scale autonomous vehicle controlled by Arduino.
- Creation of a portable speed radar prototype (Mini Speed Trap) using an ESP32 microcontroller.
- Development of a temperature/humidity sensor and a water tank level gauge using the ESP32, including data integration.

TECHNICAL SKILLS

- **Engineering software:** TIA Portal, Codesys, EPLAN, AutoCAD, KiCad, HBM-Catman Easy.
- **Programming and development:** Office Package, Excel (Advanced), C, C++, Python, Selenium, JavaScript, TypeScript, SQL, PyTorch, Git Bash.

LANGUAGES

- **Portuguese:** Native.
- **English:** Fluent.
- **Spanish:** Intermediate.
- **German:** Beginner (A2).

VOLUNTEERING

- Volunteer maths teacher on the "Shaping Children for the Future" programme.
- Volunteer in recreational activities with children admitted to Pequeno Príncipe Hospital.
- Member of the Mar Amigo Velho Scout Group (GEMAV-16).
